

BARNIER® F100

Orange net fencing

DESCRIPTION

Net fencing made of recycled polyolefine UV treated, for construction sites, restricted areas, sports events. Light weight, flexible and resistant due to optimised netting and thickness.

APPLICATIONS

- Delimit and secure the sites
- Mark prohibited areas in public places
- Signalize of sporting events and routes

Note:

The net fencing should be installed with stakes at regular intervals for better support.

PRODUCT BENEFITS

- High resistance
- Anti UV
- Orange : high visibility
- Reusable
- Easy to install
- Light and flexible
- Resistant to all weather conditions
- 100% recyclable
- Made of recycled materials

TECHNICAL PROPERTIES

Technical Property	Nominal Value	Unit	Test Method
Weight	125 (+/-10%)	(g/m ²)	-
Tensile Strength - Longitudinal	75.6 N/1 strand	-	-
Tensile Strength - Transverse	49 N/1 strand	-	-
Average strand count - Longitudinal	5,8 strand per 25cm	-	-
Average strand count - Transverse	4 strands per 19cm	-	-
Thickness	500	Microns	-
Temperature Resistance	-40°C to 100°C	°C	-
Average hole size - Length	4.6 (+/- 5%)	cm	-
Average hole size - Width	3 (+/- 5%)	cm	-

Note:

The values in this datasheet are average values.

STANDARD PRESENTATIONS

- Branding: Barnier
- Colours: Orange
- Roll Width: 1m
- Roll Length: 50m
- Roll Diameter: 14.4 cm
- Minimum order Quantity:: 1 roll
- Packaging: 49 rolls per pallet

Note:

Roll weight : 6.35kg

RECOMMENDATIONS

Indoor storage up to 2 years.
